

“The gender stereotypes that keep women locked out of senior roles and equal pay, keep men locked into the role of breadwinner.”

EMPOWERING PEOPLE PERFORMANCE

When women thrive, the men we care about and love thrive, as do our families, teams and organisations.

8 men will take their life today in Australia according to research collated by Lifeline. Death by suicide continues to be the leading cause of death amongst Australian men aged 15 - 44. 3 times greater than that for females.

The health and well-being of men in the WHO European Region: better health through a gender approach (2018) shows a correlation between men's risk of health issues and gender inequality. The gender stereotypes that keep women locked out of senior roles and equal pay, keep men locked into the role of breadwinner. The impact of this resulting in disastrous consequences on their emotional and physical health and well-being.

The true cost of gender inequity is higher than a company's bottom line.

Let's change the landscape together so we can all thrive.
